TILL the agitation runs over the time to call the games this season Shall it be 3:30 or 37 Prior to last year it was 3.45, and last BIG year Rourke made it 3:39 in response to what he conceived to be a very | Live general demand. We happen to have a very vivid recollection that many and many a game did not begin, however, until 8:45. Why? Not because Rourke was specially wedded to that hour, but simply because the fans who had "very generally" demanded the earlier hour were not on hand to watch the game and it was deemed best to postpone the performance until such time as they might saunter in. Now, this must not be construed as a knock on early opening. For our part, we would favor that with the same zeal as we do early closing, but we merely suggest that if last season was any criterion, the early opening is not as generally demanded as has been made appear. There are many who, we have been advised, could and would attend the games if they begun at 3, who are not able to go at 3:30. Some of these are men engaged in businesses that are best patronized from 5 to 7 p. m., and if the proprietors or employes are at the ball game, which does not begin till 3:30 or 3:45, then the business suffers and the upshot will be they will stay away from the games. These are good fans, the most enthusiastic, many of them, and they are more entitled to consideration than those who are at liberty to attend a ball game at whatever hour it may begin and with whom the choice or preference of time is purely arbitrary or whimsical. The early hour is being favored in larger cities. Mr. C. Webb Murphy, the debonair proprietor of the the edge on the balance and they don't Chicago Cubs, announces his intention to start the fireworks this year promptly at 2 p. m., But then Omaha is not

GAMES TO START SUNDAY

Gossip of the Teams Which Will Cavort Around the Local Amateur Diamonds During Coming Summer.

By FRANK QUIGLEY.

Well, today is the day we will give eggs away and also start the fireworks of our Omaha amateur base ball world if climatic conditions are favorable. A few games are on the platter for teday, but nothing important. These mixes will simply be for the sake of seeing how it feels to bump, stop and eatch the horsehide after a vacation of five months. Of course, all the boys will be decorated in their new bonnets in order to look approprints for this occasion.

By next Sunday the majority of our herds will be ready to greet the bell with all the pomp and splendor necessary for base ball opening. The games next Sunday will be neither here nor there in regard to being considered when the summary for the rag is taken. April 6 will mark the real opening. On and after that date every game will have a meaning of its own.

We will have numerous Saturday teams this season and many of the leading business houses will be represented. It might be a good idea for these Saturday ongregations to organize a league. They would have nothing to lose and would gain considerable experience. The main obstacle to a Sunday city league is the dough question. Several teams have got care to give up a good thing. Guess we can't blame them for their stand. No

money is involved in Saturday contests. Game Next Sunday.

The most important argument on the bill of fare for next Sunday is the mix

Tom Knapp says that if he organizes team this season they will be like hard boiled eggs. They can't be beat.

Frank Gibson is doing excellent work with the Detroit Tigers. Here is hoping he lands a berth in the big parade. The Dundee Woolen mills have secured the services of three large gas carts to lug them when they play out of town.

Mayfield, the kid with rabbit blood, ought to help George Kennedy push the Shamrocks to the Pikes' Peak of fame. Hollander, the noted sticksmith, will af in the left garden for the food dispensers better known as the Advon. In all probability the Hanscom Parks will change their monniker to Wagmans. As the C. B. Sto's team will be strengthened by several new mugs this year, they expect to improve on the enviable record they iced last term. Mullen says he has got McGuire and so does Danze. We will let him stay out in the rain until we see him tirmly in the rain until we see him fir planted with one bunch or the other.

The Dundees will sport up with new socks and headgears this season. They have been promised plenty of base balls and base ball smashers by their angel backer.

Practice is to Begin Thursday-Games Are Being Schednled, with Indications of All Time Filled.

With the return Thursday of the art students from their Easter vacation, base ball will begin at Creighton. Although bad weather has made it impossible to get much of a line on the ability of the prospective varsity men the few good days have been utilized and a number of good men have been rounded up

In the arts department are Dailey, Howard. Bets, Pass, Collins and Peterson. Of these Bets and Pass are the only unknown quantities, but both have performed with much gusto in practice. At the dental college O'Neil has announced his intention of coming out. He is a fast little outfielder and is well known in Omaha. Balderson, also a dent, is an outfielder of repute, who will probably make the team.

At the law is Wilfred Boyle, an infielder, who is said to be fast. He comes from Wisconsin. At the medical department there are some twenty applicants. Among them are Kelly, McKee, Russum. Vandever, Quigley, Rogers and Roche. Rogers is an infielder and Roche is a pitcher of experience. Both are recent additions to the list of announced candidates. In the pharmacy department is Miller, one of the best catchers in these parts and a terror with the war club.

Plenty of Pitchers. With the uncovering of a number of pitchers the material for a good team eems available. There are now at least six men who have seen pitching service who will try for places, and the position which seemed most doubtful early in the month, now looms up as strong. In the catching department are several good men, Miller being the favorite at the present running. Pass is a new man of promise and Russum is also a catcher. In the infield are McKee, Coady, Van-

dever, Rogers, Russum, Kelly, Kane and games to the schedule. A game with Peru is now assured when that team comes through here on a trip. Spalding college has made Dailey an offer for a game here and it will probably be acterial. Negotiations are still on for lish lightweight champion, who will soon game with Nebraska, and the state

## Major Sport with Princeton Tigers

PRINCETON, N. Y., March 22 Talk

of making hockey a major sport at Princeton has been revived again following the discussion at Harvard and Yale and the near-championship of the Tiger seven. This time things seem more hopeful, however, because of the existence now of a committee of the athletic board which was appointed to consider the athletic needs of the unoversity, among which special mention was made of the artificial ice hockey rink, along with the stadium and base ball cage This committee reports about April 1 to the board and the latter takes action before submitting it to the board of trustees at its annual spring meeting. It is probable that in view of the agitation over the need of a rink a favorable report will be made. Tigers have turned out teams during the plast three years, two of which have captured the big titles. There are in college now practically all of the men who composed the team that finished second during the last season, and all of them will be eligible for the 1914 team. There is no lack of interest among the undergraduates for the sport; a report recommending a rink would find universal acceptance with the students, all of whom are enthusiastic about the
